THEO. P. HAUGHEY, Pres'L. H. LATHAM. Cash.

## CONDITION OF THE MARKETS

A Day of Great Excitement in the Grain Pits of the Chicago Board of Trade.

Wheat Absorbs the Lion's Share of Attention, Prices Fluctuating Widely on Light Business-Corn Excited and Higher.

MONEY, BONDS AND STOCKS.

A Feverish and Unsettled Market in New York, with Fractional Dectines, NEW YORK, Oct 3 .- Money on call was easy at 223 per cent., the last loan being made at 24, closing offered at 24 per cent.

Prime mercantile paper, 42 27 per cent. Sterling exchange was dull but steady at \$4.80} for sixty day-bills and \$4.87} demand.

The total sales of stocks to-day were 307,141 shares, including the following: Delaware, Lackawanna & Western, 15,815; Erie, 5,580; Hocking Valley, 5,935; Lake Shore, 7,520; Louisville & Nashville, 9,211; Missouri Pacific, 4,765; Northwestern, 9,400; Northern Pacific preferred, 6,650; Oregon Transcontinental, 5,425; Reading, 37,350; Richmond & West Point, 34,100; St. Paul. 30,598; Union Pacific, 25,580; Western Union, 12,810; Wheeling & Lake Erie preferred,

The stock market was less active, but was still feverish and unsettled, and the decline begun yesterday made further progress, though the losses are generally insignificant. There was a marked disposition to hold off until the settlement of the wheat deal and some of the other questions of the financial world shall have made the outlook a little clearer, and the "bears" seemingly had everything in their own hands. But the list showed a remarkable recup-rative power whenever the pressure was lifted, and to the unusually firm undertone the feverish condition of the market was in a great measure due. The uneasiness in the Boston market, caused by the further break in Atchison this morning, brought some selling orders from the center to-day, and there was also a liberal batch of selling orders from Chicago, where the wheat deal is now unsettling confidence. These affaire encourage the "bears," and it was reported that several failures had occurred in the last-named place though the contradiction of this afterward went far to make the afternoon rally. It was positively asserted, and obtained some believers, that the Bank of England would advance its rate of discount to-morrow, which also had an effect upon values. The only influence for good during the day was the back-down by the Nickelplate in regard to the advance in east-bound freight rates and the appearance of London in this market as a buyer again, though the purchases of the latter were of no great importance. Fluctuations were comparatively narrow, most of the active stocks being traded in over a range of less than I per cent., and the decided move-ments were very few. The lease of the East Tennessee by the Richmond & Danville still had a stimulating effect upon Richmond & West Point, but it was only able to bold its own. Reading, New England, Union Pacific, and St. Paul were the active stocks, but with the exception of Union Pacific, no strength was shown in any of them, while St. Paul was quite weak in the forenoon, the selling being attributed to Chicago. Hocking Valley was the strong feature, and, with Oregon Improvement, advanced sharply on a very moderate business. The first sales this morning were made at irregular changes from last evening's prices, though the differences extended only to per cent. Considerable strength was shown in the early trading, but soon after 11 o'clock the list began to show signs of weakness, and while there was no special weakness anywhere in the list, sverything yielded slowly, while the volume of business, which during the forenoon had been moderately large, steadily decreased, and dur-ing the last hour had become quite dull. Prices declined until toward delivery hour, when there was a reaction, and the remainder of the day was devoted to recovering a por-tion of the losses. The close was duli but firm, generally at small fractions below the opening figures. Oregota Improvement advanced 14 per cent., and Hocking Valley 14. and a few others small tractions, and while the declines are in a large majority they are confined to small fractions, with the one exception of Chicago, Burlington & Quincy, which lost 1

per cont. The railrod bond market was again moderately a-tire to-day, the sales of all issues reaching \$1,849,000, out of which the Richmond & West Point Trust sixes furnished \$259,000; the Richmond & Allegheny receipts, \$155,000, and the West Shore fours, \$132,000. The activity in those issues, however, was the only feature of the day, though Fort Worth & Denver firsts were prominent at one time. The movements in the lists were like those of the share list, being confined to fractions.

Government bonds were duil and firm. State bonds were dull and steady. Closing

Butter steady; Western, 13@14je; Western creamery, 13@23c. Cheese stronger on fancy; Western, 8@9jc,

CHICAGO, Oct. 3.-The feeling developed in wheat in this market was greatly excited again. more so than on any previous day, being the outcome of wild speculations. Some of the oldest operators described to-day's opening, with the exception of war times, as without a parallel. Possibly never in the history of the trade did prices fluctuate so wildly as to-day. Almost the whole range of the day's market, which was 7 cents, was covered within six minutes from the opening. This will illustrate the condition of the market. Prices ran up and down 1 cent at a jump with no trades at intervening figures. When operators becan to buy there was but little wheat to be had, and when they wanted to sell there was but little demand to take the wheat. To-day's business shows a marked falling off as compared with the preceding day, and the trading was principally in the way of evening up and settling trades. Operators do not care to sell on such a market as it is too easily controlled, and at the same time many operators would not risk buying at the prices ruling. Many merchants are advising their customers to stop making new trades in wheat for the present, at least, and there is rapid settling up, or evening up, of trades. Some parties who have held to the "buil" side were reported as selling to-day, though others predict and are holding for higher prices. As to the opening, the first few trades were at 21 36e over the closing figures of yesterday, and immediately sold 34c more, or, in other words, prices were 94c higher for December within five minutes after the opening than the closing figure of yesterday. Prices almost immediately declined 4c and then fluctuated very frequently within lie range, again sold up to the top figure, back 6c. and closed 34c for October, 44c higher for December, and 3c higher for May than the closing figures of yesterday. Foraign markets were better and bigher, and domestio markets decidedly bigher than yesterday. Duluth No. 1 hard sold 10c above Chicago No. 2. The corn pit was the scene of activity and confusion the entire session, fluctuations being wild and the course of prices difficult to follow, so excited was the pit at times. The feeling was greatly unsettled, and probably at no time since May has the market been so excited and unsettled. The trade was mainly to November, and this future fluctuated, within a 3je range, a nervous feeling prevailing regardthis month and some talk of a squeeze was intimated by several operators, which created an active demand from "shorts," and in evening up prices advanced sharply. The market was governed entirely by loral influences, the advance in wheat having a strengthening effect on prices. Opening sales were l'alie higher than the closing prices of yesterday, after which the market ruled wild and the greatest confusion prevailed Prices advanced in jumps of 12 to until an advance of 5c was recorded, when the market reacted almost as quickly, declining 31c, ruled very unset-tled and closed with October 1c, and November 14c higher than yesterday. The market for osts has at last fallen into line and followed the advancing tendency of other cereals, a very substantial advance being shown in to-day's range of prices. Trading in future deliveries was more active, the demand good and not so much for the purpose of covering "shorts" as in the way of speculative purposes. Mess pork was active but unsettled. The general feeling was stronger, and prices ranged higher early. January received the most attention, and large lots changed bands frequently. "Longs" unloaded freely, and the bulk of the buying was to cover "shorts." Opening sales were at 25 @ 30c advance. January sold up 25c more, declined to opening figures, became irregular and advanced to previous outside prices, but the market closed easy at almost the lowest figures. Lard was moderately active, stronger and higher. Offerings were not large, and the demand mainly for covering outstanding contracts. Prices opened 05 8.12 o higher on the active futures and advanced .021 @ .05c, receded slightly and closed easy. Short-rib sides were traded in to a fair extent at a higher range of prices, opening at an advance of .35c on October and .20c on January, receding .15c on the former and .05 @ .07je on the latter, rallying slightly but closing easy. The leading futures ranged as follows:

Wheat—Oct... \$1.0914 \$1.1419 \$1.0914 \$1.10 November 1.1019 1.1534 1.1019 1.12 December May..... Corn-October.. 1.18 1.12 1.12 1.124 November December # 4038 January .. Oats-October .. INDIANAPOLIS MARKETS. An Active Trade, an Easy Money Market and Firm Prices Cover the Local Situation.

\$6.60@6.65; Yorkers, \$3.60@3.65.

INDIANAPOLIS, Oct. 3. In nearly all departments a good trade is in progress, and with an easy money market bills are being met with a good deal of promptness.

And on most lines of goods there is a strong one to prices; especially will this remark apply o dry goods. The wholesale men say that they would not ask for a better trade, and the steadness of prices tends to create a confidence which is shown in the liberal purchases. Comng to the grocery markets, there is an activity which is seldem excelled. The firm tone to offees and all other groceries, unless it be the weakness in sugars, is favorable to increasing ales. There is less of the hand-to-mouth policy n retail merchants' purchases. Wholesale groers are of the opinion that the weakness in ugars will be of short duration, so light is the upply. In the produce markets the volume of business is unprecedentedly large, and has been for some weeks. Receipts of apples and potatoes are large, and prices rule low as compared with last year. A very fair apple can be bought for \$1.75 per barrel and choice fruit at \$2.25 per barrel. Peaches and pears are coming in slow, and prices rule higher. Reeipts of poultry are liberal and prices are weak. The same is true of butter, while eggs are in ight supply with an upward tendency in prices. The provision market is in strong position. Prices are steadily advancing.

The local wheat market was in a wild and unsettled condition. Sellers were not anxious to unload even at the highest bids. Offerings are light. Millers took hold cantionsly. In sympathy with the wheat market the corn market took on a stronger tone. Offerings were ample to meet the demand. Oats are advancing in tendency, with fair arrivals. Track bids to-day ruled as follows:

Wheat-No. 2 Mediterranean..... \$1.07 No. 2 red ..... 1.06 No. 3 red..... Rejected ..... November.... Corn-No. 2 White..... No. 3 white..... No. 4 white..... No. 2 mixed..... No. 2 yellow..... No. 3 yellow.... Sound ear yellow..... Mixed..... Oats-No. 2 white..... No 3 white..... Unmerchantable. 20
Bran. 12 50
Hay—Choice timothy. 12 50

FIELD SEEDS Wholesale and retail at C. F. HUNTINGTON & CO.'S successors to Huntington & Hoss, 78 and 80 E. Mar ket st., Indianapolis. Samples and prices on application

Farm Notes. Corn cut for fodder while in bloom, either to be dried or siloed, contains but 13 per cent of solids. If left until ears are formed and the kernels begin to glaze it will have 25 per cent.

Foundation walls for barns and stables should go down deep on low soils that are not welldrained. Many walls go to rain by failure to ceptionally cold winter may cause damage from frost, and it is always well to bank up as much as possible.

The heavy breeds of ducks can be kept within an inclosure, with a very low fence, and, if given a trough for bathing purposes, they will thrive and do well if fed on grass or buiky food. Too much grain is detrimental. The Pekin breed seems best adapted on farms that have no ponds or streams of water.

The old agricultural theory sustained by Bible authority, of summer fallowing (letting the soil rest one year) is a failacy long since exploded. The soil is seriously injured by letting it lay bare and exposed to the sun. Better raise a crop of cockie burs than nothing, if they are plowed under while green, before the seed

The color of the hog seems to be a matter of importance. Experiments show that, centrary to expectation, a black hog, such as the Essex and Berkshire, thrives best in the South, while white breeds, such as the Chester White, Yorkshire and Cheshire, thrive best in the North. The Poland-China, a spotted hog, and the Jersey Red, are preferred in the Western States.

"All the Year Round in the Home" is a series of papers by Christine Terhune Herrick in the Ladies' Home Journal and Practical Housekeeper. The one for October is on "Getting Ready for Winter."

Just that one paper will pay for the year; but you shall get what remains of the year (September besides) by sending ten

Hundreds of thousands of families are wondering how it is that we can make a good magazine for almost nothing. Why, bless you, the nearer you get to a million the easier it is to do it.

Send it in silver or stamps. The October number is on the news-stands-six cents.
